SENAC Distrito Criativo

Technical High School Program in Programming

Completed 2025

SENAC Tech

Python Certification

Completed 2023

LANGUAGES

- Native proficiency in Portuguese
- C2 fluent proficiency in English

WORK EXPERIENCE

Rodociclo Bikeshop

May 2025 - Present

Product, Web & Visual Designer / Social Media Manager

- Reconstructed the visual and functional e-commerce experience for an established bicycle retailer within the Tray platform.
- Designed the interface, information hierarchy, responsive behavior and customer purchasing flows across desktop and mobile.
- Implemented storefront improvements using HTML, CSS, JavaScript and Twig while working within platform constraints.
- Improved product presentation, campaign landing areas and visual consistency across the catalogue and promotional content.
- Collected customer and stakeholder feedback, prioritized high-impact issues and released improvements progressively.
- Created social media content and used AI-assisted design and development workflows to accelerate production and iteration.
- Contributed alongside marketing, commercial and operational initiatives as monthly online sales grew from a previous peak of about R\$10,000 to R\$30,000-R\$50,000.

Bike Tech Moinhos

June 2025 - Present

Product, Web & Visual Designer / Social Media Manager

- Redesigned and implemented a premium bicycle e-commerce experience focused on catalogue clarity and product discovery.
- Mapped important discovery and purchasing moments, then refined hierarchy, product presentation and responsive behavior.
- Customized the Tray storefront using HTML, CSS, JavaScript and Twig, balancing design intent with platform conventions.
- Organized the product catalogue and connected interface work with promotional assets, campaigns and social media management.
- Used qualitative customer and stakeholder feedback to iterate on purchasing flows, promotional clarity and mobile usability.
- Established a more coherent visual and functional system across the catalogue, storefront interface and campaign materials.

Wave Marketing

2025 - Present

AI Creative Producer / Visual Designer / Video Editor

- Create direct-response video advertisements using AI generation, visual design, editing, motion and short-form workflows.
- Combine AI-generated footage and imagery with pacing, typography, sound and visual effects for performance-oriented creative.
- Produce campaign assets involving well-known public figures, from creative concept and generation through final editing.
- Adapt ideas into multiple visual approaches and short-form formats while maintaining clarity, consistency and delivery speed.

ADDITIONAL PRACTICE

Visual Design and Editing

2018 - Present

- Experience across image manipulation, campaign design, e-commerce visuals, motion design, social content and short-form video editing.

Programming and AI-Assisted Development

2023 - Present

- Build websites, interactive prototypes and automations through continuous programming study, rapid prototyping and code-assisted workflows.
